## EXPERIENCE

### Junior Software Engineer

#### Wissen Infotech

10/2021 - Present Whitefield, Bangalore

I have been working for 2 years, working on projects using MERN Stack and React Native.

- Building web application with MERN Stack and REST API, following the best web development practices.
- Working in continuous integration using Git, and testing the application using Jest and Sonarqube.
- Gather and refine specification and requirements based on technical requirements of UX designs.
- Involving in all the agile ceremonies for efficiently delivering the assigned tasks.

## PROJECTS

### Contact Merger ( Mattioli Woods)

09/2022 - 12/2022 Bangalore

Creating the frontend for Contact Merger project having a responsive web page with different tabs.

- Tools Used - **React.js, Jest, Bootstrap, Material UI, Axios, REST API**
- Highlights - Using Axios to fetch, post the data, doing the form validation on each tab. Persisting the selected data in each tab using Redux. Testing the respective component using Jest and SonarQube.

### Service Catalog Project (Wissen Infotech)

07/2022 - Present Bangalore

Creating a responsive web page and adding JWT authentication for login., and creating multiple dashboards based on type of user logged in.

- Tools Used - **React.js, Material UI, Axios, JWT, Swagger, REST API**
- Highlights - Creating a robust and reliable app that can be used by all employees of the company, including the senior management.

### Cloud Automation Tool (Wissen Infotech)

02/2023 - 08/2023 Bangalore

Generate Python scripts based on the input provided by the user, with different cloud services like AWS, Azure.

- Tools Used - **React.js, MongoDB, Node.js, Express.js, Redux, Jest, Docker, Sonarqube, REST API.**

### Task Manager (Internal Project)

05/2022 - 07/2022 Bangalore

Creating an android mobile app where user can save their daily tasks and select roles in their local storage and can also set up MPIN for logging in into the app.

- Tools Used - **React Native**

### Data Copy Portal

02/2022 - 04/2022 Bangalore

Creating a responsive web page and adding JWT authentication for login, fetching the data using Axios, doing form validation.

- Tools Used - **React.js, Material UI, Axios, JWT, REST API**

## SUMMARY

Experienced MERN Stack Developer with two years of hands-on expertise in building robust and scalable web applications. Proficient in all aspects of the MERN stack . During my tenure, I have successfully designed and implemented responsive front-end interfaces using React, React Native, integrated complex back-end functionality creating REST API with Node.js.

## SKILLS

### Backend and Tools

Node.js Express.js Typescript

REST API MongoDB Next.js

Git Postman Swagger

### Frontend

React.js React Native HTML5

CSS3 Next.js Jest Testing

Responsive Web Design Bootstrap

Material UI Javascript NPM

Redux Sonarqube

## EDUCATION

B.E. (Electronics and Communication)

City Engineering College, Bangalore

08/2015 - 08/2020

## TRAINING / COURSES

Learning Path in Full Stack Development | Web Developer | 2020-21 Board Infinity
